

Instructional Recording-Opt Out

Dear Parent/Guardian,

In an effort to support all students, teachers will be recording their lessons. This will allow for students to access instruction at any time through their google classroom pages. Although the recordings will primarily focus on the teacher, there is a chance that students can appear in the recording.

The video recordings will not be made public for any reason and will be housed in the google classroom forum only. If you do not give permission for your student to appear in any video of instruction, please return the following form to the office.

Sincerely,

Freeman Administrative Team

I do **NOT** give permission for the teacher to post a video of instruction that my child appears in for the sole purpose of student access.

Student Name: _____

Signature of Parent/Guardian: _____

Date: _____
