

WASHINGTON STATE

Locate and label the bodies of water, cities and mountains listed below. Each label should be written neatly, in all capital letters and in black ink. When you finish labeling all of the items, color your map neatly by region. Remember there are five regions in Washington, so your key should indicate the color of each region. Your key should also contain the color of water, the shape of mountain ranges, and any other items you wish to include on your map. Your map should also contain a compass rose.

Cities

- Bellingham
- Mount Vernon
- Everett
- Port Angeles
- Oak Harbor
