

FREEMAN CONNECTED

YOUR PATH TO LEARNING

WELCOME MESSAGE!

Welcome and thank you for joining us for this very first edition of the Freeman ConnectEd quarterly newsletter! As the program launches, we are excited to share the incredible start we've had. Online education is a flexible method of delivering instruction, allowing students to learn anytime and from nearly anywhere. This flexibility is key, as we are currently supporting 18 bright students across grades 6 through 12. We are excited to connect with you and share our program updates each quarter.

EDMENTUM: OUR EDUCATIONAL PLATFORM

Edmentum is a leading K-12 educational technology partner that provides digital curriculum. They have a robust list of course offerings students can enroll in. This OSPI approved provider has been a great partner. The course and technology support has assisted students in being able to access the courses with ease.
