Introduction

Educational Effectiveness Survey, Student SEL Edition

While there is no single solution for all schools, research on effective schools identified common characteristics of high-performing schools known as the 9 Characteristics. Successful schools engaged in improvement activities focus on these characteristics of “organizational and educator capacity” to create and improve the system(s) that ultimately drive performance outcomes. Understanding the perceptions of your student population is essential to inform changes for improvement.

Student voice is an integral part of compiling an accurate view of these school improvement constructs. In both stand-alone reporting and through common questions between staff, students, and families, the EES Student survey brings this voice to the table. Beyond the value for school staff to learn from student perspectives, CEE can make the EES Student data available to student leadership through the interactive tools. This allows students to take ownership of the school culture, efforts to improve this culture, and the ability to monitor growth over time.

Freeman School District Custom Questions (High School Only)

The 180-day school calendar doesn't add school days; instead, it strategically balances the 180 school days with short breaks throughout the school year to support students and staff. Is this something you would be interested in learning more about?

Are you aware Freeman SD has been working on a Long-Range Facilities Plan to prepare for future growth?
